PERFORMANCE FEATURES

- Steam Release – multiple articulated vents on sides and/or back allows customers to select the right level of venting for each food item, prevents soggy take out
- Visibility - window options are great for “grab n go” foods and order accuracy identification
- The medium material of Eco-Flute® is 100% post-consumer recycled content (PCR), making the total package a minimum of 33% PCR
- Insulated – corrugate layer helps to keep hot food hot and cold food cold
- Food Integrity - lightweight F and E flute material allows for moisture vapor transmission and resists grease to keep foods fresh and crisp
- Ease of Use – simple to load with secure locking lids
- Sturdy - superior rigidity and crush strength

What exactly is bagasse packaging?

Bagasse (pronounced
buh-GAS) is leftover
waste from sugar cane
plants. Bagasse
packaging is one of the
best and most eco-
friendly options:

Biodegradable and
compostable

Freezer and
microwave safe

Suitable for both hot
and cold foods

We'll cater to your needs

Regalia™ Half Pans and lids are strong, grease and cut resistant alternatives to traditional plastics, just like our 100% renewable, BPI certified compostable sugarcane dinnerware, trays and serving bowls. A common lid for three sizes makes stocking easy and drop-off catering even easier. Pack up hot or cold foods, drop them off and then go.

GREENSTRIPE™ by Eco-Products™

Regalia™ Half Pans

- Made from 100% renewable and reclaimed resources
- Made with sugarcane, a rapidly renewable resource
- Meet ASTM standards for compostability
- Grease and cut resistant
- Molded construction designed for strength and style
- For use with hot or cold foods
- Microwave and freezer safe
